Description of the failure

1) Which part of the valve failed?

Positioner: Leckage:
 Actuator:

Miscellaneous:

2) Exact description of the failure:

.....

Frequency of the failure?	<input type="checkbox"/>	Reason for failure?	<input type="checkbox"/>
The failure occurs permanently:	<input type="checkbox"/>	The reason for failure is known:	<input type="checkbox"/>
The failure occurs casually:	<input type="checkbox"/>	The failure also occurs with other valves:	<input type="checkbox"/>

Estimate of costs desired: Permission for reparation: Consultation desired:

Dear Sir or Madam,

In order to protect the environment and our colleagues, please inform us whether the returned valve was in contact with dangerous media or not. Therefore, send us a detailed safety confirmation for each valve to permit a quick response. If not, it may be possible that due to safety reasons, we will not start with the analysis of the fault or the reparation itself.

The valve was in contact with the following dangerous medium:

Inflammable

biologically dangerous

explosive

caustic

harmful to health

poisonous

different danger

The valve mentioned above, is free of dangerous substances or has been decontaminated acc. to safety regulations. The information given in this safety confirmation is complete and true.
